

**Riley Hospital Outpatient Center  
Parking Garage  
Indianapolis, Indiana**

This project includes a 6-level, 1,100 car parking garage with two stair/elevator towers and a third open stair.

The exterior finishes of the garage are mainly brick and Indiana limestone.

Under this garage is approximately 35,000 sq ft. finished basement for the offices of nine Riley Hospital related departments. Two stair towers are structurally independent of the garage with an additional interior open stairwell.

Microsilica concrete, encapsulated monostrand post-tensioned system and epoxy coated reinforcement were used to enhance durability.

Owner: Indiana University  
Mr. John Nolte
